

# Precision Tool Plastic Finishing Blocks

*Solid-Center blocks provide the extra support needed on AR coated lenses to prevent costly cracking and crazing. Available in 24mm & 18mm round, 17mm & 19mm half-eyes, and 17mm x 30mm oval.*

*For optimal support, use the solid center blocks with the OptiSafe Blocking Pads and OptiSafe Anti-Slip Pads. This combination will prevent cracking, lens slippage, and twisting.*
