- **“Super stick” pad for “Slippery” lens coatings**

Newest generation of edging pads for the *super hydrophobic/oleophobic* lenses. The new **PHANTOM® Hydro Pads (THX Version)** are designed with dual adhesive systems. The lens side adhesive is more aggressive than the TH version, to provide an extra amount of adhesion for the most slick lens surface. This prevents slippage while edging lenses, yet the pads are easy to remove leaving absolutely no residue. The new **PHANTOM® Hydro Pads** are the ultimate solution to all your edging problems. Available in different sizes to fit metal and plastic blocks.
